

# epos

Epos approached the home theatre market with the design of its M8 centre channel speaker exactly as you would expect – with no compromise in sound quality.

Designed to complement the M series speakers, the centre channel is both elegant and functional. Available in a choice of dark cherry, light cherry or black, the front baffle of the M8 is also finished in real wood making this centre channel a stylish addition to any system.

The final design of the M8 has incorporated an unusual and acoustically advanced crossover which reduces the colouration when two mid/bass units are in close proximity to each other. Featuring two woofers either side of a central tweeter, these drive units are isolated one from the other in sealed enclosures of equal volume. The drive units are the same as those used in the M5 bookshelf model.

The resulting performance is exceptional, exactly as you would expect from Epos and undoubtedly justifies the engineering time which has gone into this product.

Power Handling: 75 Watts Max  
Frequency Response: 60Hz – 20kHz  
Impedance: 8 Ohms Nominal  
Sensitivity: 87dB/1 watt/1 metre  
Amplifier Compatibility: 25 – 100 Watt  
Configuration: Center Channel  
Weight: 10.5kg  
Size W x H x D (mm): 510 x 174 x 210  
Finish Type: Real Wood Veneer  
Finishes: Light Cherry, Dark Cherry, Black Ash
